Direction (1-4): There are five 4-digit numbers preceded by 4-letter words as given below. Answer the following questions based on these numbers.

FELT 4137, MART 6214, TAKE 5217, CREW 8316, TIME 3184

1. If 'S' is added before each 4-letter word then, how many new meaningful words can be formed?

- A.2
- B.3
- C.1
- D.More than three
- E.None

2. If all the numbers within the 4-digit numbers are rearranged in ascending order from left to right, then how many letters are there between the 2nd letter from the right of the words which are followed by lowest and second highest number after rearrangement according to alphabetical order?

- A.4
- B.7
- C.5
- D.8
- E.None of these

3. If all the letters within the 4-letters word are rearranged in alphabetical order from left to right and thus words are arranged from left to right as they appear in the dictionary then, which of the following 4-digit number is preceded by third word from the left after rearrangement?

- A.3184
- B.8316
- C.4137
- D.5217
- E.6214

4. If 1st and 3rd & 2nd and 4th digits within the 4-digits numbers are interchanged then which of the following number is the second lowest number?

- A.3184
- B.5217
- C.4137
- D.8316
- E.6214

Direction (5-8): Study the following information step by step carefully and answer the below questions.

% @ # £ & ^ + \$ € β > ¥ ©

Step I: Consider the first four prime numbers, to that add '2' and subtract '1' alternatively and

Alpha Numeric Practice Questions PDF for Upcoming Mains Exams 2021

Write all the numbers after every third special character from left to right in the same order.

Step II: Pick out the letters which have its place value is a multiple of '4' in English alphabetical series, and write all such letters in reverse alphabetical series from left to right after every second element in the series thus formed after step I.

Step III: Pick out the vowels from the English alphabetical series, and write all such letters in alphabetical order from left to right after every fourth, seventh, twelfth and nineteenth element in the series thus formed after step II.

Step IV: Reverse the order of every four elements in the series thus formed in step III, after retaining every six elements from the left end in the same order.

5. How many such digits are there in the final arrangement which is/are immediately preceded by a vowel and immediately followed by a special character?

- A.3
- B.2
- C.More than three
- D.1
- E.None

6. Which of the following element is the seventh element to the left of the second consonant from the right end in the final arrangement?

- A.L
- B.^
- C.E
- D.2
- E.None of these

7. How many such special characters are there in the final arrangement which is/are immediately preceded by a number and immediately followed by a consonant?

- A.3
- B.1
- C.2
- D.More than three
- E.None

8. If all the letters are dropped from the final arrangement then which of the following element is ninth from the left end?

- A.2
- B.€
- C.+
- D.7
- E.None of these

Direction (9-13): Study the following information carefully and answer the below questions.

Alpha Numeric Practice Questions PDF for Upcoming Mains Exams 2021

N A 3 K 2 W 8 G 4 @ Z * D % 9 H 7 \$ 5 U ^ 1 L
& S R = Y 6 ? E

9. In the given arrangement four of the following five are in a certain way. Which of the following does not belong to the group?

- A.UH^
- B.9D7
- C.@G*
- D.&1R
- E.GW@

10. Which of the following will be seventh to the right of the thirteenth element from the right end?

- A.R
- B.V
- C.L
- D.6
- E.&

11. How many letters are there between the seventh element from the left end and the fourteenth element from the right end?

- A.2
- B.4

C.7

D.6

E.5

12. What will be the sum of all the numbers between the tenth element from the left end and eighth element from the right end?

- A.17
- B.15
- C.22
- D.20
- E.19

13. If all the letters from the given arrangement are dropped, then which of the following will represent the third element to the left of 4 and the fourth element to the right of ^ respectively?

- A.2 and=
- B.3 and?
- C.& and =
- D.3 and 6
- E.2 and?

Answer With Explanation

1) Answer: B

We have:

FELT 4137, MART 6214, TAKE 5217, CREW 8316, TIME 3184

After adding 'S' before each word we have:

SFELT 4137, SMART 6214, STAKE 5217, SCREW 8316, STIME 3184

Clearly, only three meaningful words can be formed -> SMART, STAKE & SCREW.

Hence, option B is correct choice.

2) Answer: A

We have:

FELT 4137, MART 6214, TAKE 5217, CREW 8316, TIME 3184

After rearranging digits within 4-digit number we have:

FELT 1347, MART 1246, TAKE 1257, CREW 1368, TIME 1348

Word preceded by lowest number = MART

Word preceded by second highest number = TIME

Clearly, number of letters between 'M' & 'R' = Four

Hence, option A is correct choice.

3) Answer: B

We have:

FELT 4137, MART 6214, TAKE 5217, CREW 8316, TIME 3184

After rearranged letters of the word in alphabetical order we have:

EFLT 4137, AMRT 6214, AEKT 5217, CERW 8316, EIMT 3184

Thus, third word as they appear in dictionary CERW.

Hence, option B is correct choice.

4) Answer: D

We have:

FELT 4137, MART 6214, TAKE 5217, CREW 8316, TIME 3184

After interchanging digits within 4-digit number we have:

FELT 3741, MART 1462, TAKE 1752, CREW 1683, TIME 8431

Thus, "8316" is the second lowest number.

Hence, option D is correct choice.

Direction (5-8):

% @ X # A 4 & E £ T P ^ 2 L I + 7 € H \$ D β O > ¥ 6 ©

We have:

% @ # £ & ^ + \$ € β > ¥ ©

Step I: Consider the first four prime numbers, to that add '2' and subtract '1' alternatively and write all the numbers after every third special character from left to right in the same order.

For Example:- $2 + 2 = 4$; $3 - 1 = 2$; $5 + 2 = 7$; $7 - 1 = 6$.

Alpha Numeric Practice Questions PDF for Upcoming Mains Exams 2021

Thus we have the following result:

% @ # 4 £ & ^ 2 + \$ € 7 β > ¥ 6 ©

Step II: Pick out the letters which have its place value is multiple of '4' in English alphabetical series, and write all such letters in reverse alphabetical series from left to right after every second element in the series thus formed after step I.

Then, we have the letters:- D, H, L, P, T & X

Thus, we have the following result:

% @ X # 4 T £ & P ^ 2 L + \$ H € 7 D β > ¥ 6 ©

Step III: Pick out the vowels from the English alphabetical series, and write all such letters in alphabetical order from left to right after every fourth, seventh, twelfth and nineteenth element in the series thus formed after step II.

The vowels from the English alphabetical series are:-A, E, I, O & U.

Thus, we have the following result:

% @ X # A 4 T £ E & P ^ 2 L I + \$ H € 7 D β O > ¥ 6

©

Step IV: Reverse the order of every four elements in the series thus formed in step III, after retaining every six elements from the left end in the same order.

Thus, we have the final arrangement as follows:

% @ X # A 4 & E £ T P ^ 2 L I + 7 € H \$ D β O >

¥ 6 ©

5) Answer: D

6) Answer: B

7) Answer: B

8) Answer: C

9) Answer: A

UHV is not same as the others pattern.

N A 3 K 2 W 8 G 4 @ Z * D % 9 H 7 \$ 5 U ^ 1 L

& S R = Y 6 ? E

10) Answer: A

N A 3 K 2 W 8 G 4 @ Z * D % 9 H 7 \$ 5 U ^ 1 L

& S R = Y 6 ? E

11) Answer: B

N A 3 K 2 W 8 G 4 @ Z * D % 9 H 7 \$ 5 U ^ 1 L

& S R = Y 6 ? E

12) Answer: C

N A 3 K 2 W 8 G 4 @ Z * D % 9 H 7 \$ 5 U ^ 1

L & S R = Y 6 ? E

9+7+5+1 = 22

13) Answer: D

3 2 8 4 @ * % 9 7 \$ 5 ^ 1 & = 6 ?
